

ESSENZA

Sleep- and Loungewear
Fall/Winter 2026

Essenza. Enchanted by Nature.

In a world that rarely slows down, Essenza creates space to retreat. Space to breathe, to soften, to reconnect with yourself. Inspired by the quiet power of nature, we design collections that bring calm, beauty and comfort into everyday life.

Nature guides everything we do. Not as decoration, but as a source of meaning. In colour, texture and pattern, we translate her balance and authenticity into designs that feel personal and grounding. Each piece is created to support daily rituals. Waking up slowly. Coming home. Letting the day fade.

We believe comfort is not a luxury, but something you deserve every day. That is why we choose materials that feel gentle on the skin, silhouettes that move with you, and colours that create harmony in your home. Thoughtfully crafted, designed to last, and made to be lived in.

Essenza celebrates the art of slowing down. Of choosing softness in a fast-moving world. And of staying close to what truly matters. A home that feels like a refuge. A moment that feels like coming back to yourself.

Fall/Winter 2026

How it feels to dream

This season, Essenza turns inward. Towards the quiet moments where imagination softens reality and comfort becomes a natural state. *How it feels to dream* is about retreating without disconnecting. About finding shelter, warmth and meaning in everyday rituals.

Fall Winter 26 explores the balance between serenity and wonder. Organic shapes, flowing lines and warm, approachable colours create a sense of safety and calm. Inspired by nature's ability to soothe and restore, the collection feels protective and human. Like a place where you can exhale.

Values take centre stage. Staying close to yourself when the world feels unsettled. Cherishing traditions, human connection and shared moments. Elegance returns in a refined, understated way. Crafted rather than polished. Expressive, yet calm. Minimal in form, rich in feeling.

The silhouettes move gently with the body. Colours are softened and slightly muted, chosen to bring rest to both home and mind. From intimate homewear to serene bedroom designs, each piece supports a slower rhythm of living.

How it feels to dream is an invitation to embrace softness. To create a home that feels safe, familiar and quietly inspiring.

For your bathroom

A place to begin and unwind

In the morning, after your shower. Or in the evening, when you rinse the day away. Essenza's bath collection gives you that quiet moment in between. Towels made from soft cotton and modal absorb moisture without feeling rough. Velour qualities feel velvety smooth against the skin, while pure terry offers a fresh, full-bodied touch. Our organic cotton bath collection wraps you in softness that feels right. For you, and for the world.

The colours are drawn from nature. From sand to sea green, from linen to lavender. Different each season, yet always in balance. Prints remain subtle and calm: a refined texture, a flower at rest.

All materials are OEKO-TEX® or GOTS certified and carefully selected for their lasting quality. What touches your skin should feel right. Soft, honest and made to last.

This is how a routine becomes a ritual. Your bathroom turns into a place of softness. And you begin or end the day with attention.
