HKLIVING COLLECTION

We strive to redefine interior spaces by infusing creativity and joy into every product we develop. With daring collections that challenge conventions and bear the unmistakable HKLIVING signature, we curate experiences that inspire, provoke, and push boundaries, redefining the essence of space one design at a time.

COLLECTION 2026—2027

There was a time when interiors followed a set of rules. Today, the spaces that stay with us tell a different story. They evolve over time, shaped by the places we've been, the things we've collected and the objects we simply couldn't leave behind.

This collection grew in much the same way. Inspired by colour, form, travel and everyday moments, it became a rich composition of materials, textures and contrasts. Traditional references meet sculptural silhouettes. Raw finishes sit comfortably beside refined details. Pieces weren't designed to match perfectly, but to bring out the best in one another. Because the most memorable interiors are never built around perfection. They're built around character.

Wave couch

Inspired by the desire to lounge around from time to time, we have created a couch that is both multi-functional and contemporary. You're in charge and can create the couch you want with our nine Wave couch elements. It has a slightly more active seat and can be combined with an inviting divan element. The overall shape of the couch can be traced back to Hollywood in the early 1970s and, thanks to its round curves, it will turn your living room into an inviting place to gather and relax.

Nomad couch

The Nomad couch was inspired by the effortless charm of Mediterranean boutique hotels, where every detail feels curated yet inviting. We imagined rooms where linen sofas beckoned you to sink into their soft folds, where relaxation was the essence of luxury. This piece blends the warmth of southern Europe with pared-down functionality, offering comfort and style without pretense—a true reflection of spaces designed to make you feel at home.

CARE INSTRUCTIONS
Use non-abrasive cleaning tools. Possibly avoid leaving dirt and stains for long time on the surface of the laminate. To avoid leaving marks, always remove the detergent, rinse and dry well. It is advisable to proceed with a preliminary test on a small portion of the surface. Do not use aggressive products (for example: muriatic acid, products for cleaning silver and caustic soda). We recommend using coasters. Avoid contact with sharp objects.
