OVERVIEW 124

YOUR NATURE AT HOME

Modern design, timeless comfort and that unmistakable Scandinavian spirit. Founded in Stockholm in 1967, Marc O'Polo stands for a relaxed, urban lifestyle with a preference for natural and forward-looking materials. A character you'll find reflected in the new Home collection. Premium quality, beautiful details and honest patterns and textures, across a wide range of bed and home textiles and accessories. Made for you, your friends and family, to turn moments at home into lasting memories.

TOWARDS SUSTAINABILITY AS THE NEW STANDARD

Our goal: to offer only products that are largely made from materials aligned with our responsibility for the environment. We call a product sustainable when its key materials, as well as the way they are sourced and processed, match our sustainability ambition. Sometimes specific product requirements or a limited range of alternatives make it difficult to achieve this fully. In those cases we leave very little room for compromise, just enough to safeguard quality while continuing to make responsible choices.

SUSTAINABLE MATERIALS

Marc O'Polo was founded in 1967 with one clear idea: to use as many natural materials as possible, and synthetics only when there is no real alternative. Most of our natural materials, such as cotton, come from responsible sources (think of organic cotton). And for a number of synthetic materials, more sustainable alternatives are now available, such as recycled polyester or regenerated cellulose fibres from natural raw materials.

ORGANICALLY GROWN FIBRES

Organic products contain fibres grown without synthetic pesticides, defoliants or chemical fertilisers, and without genetically modified organisms. In line with the principles of organic farming. All Marc O'Polo Home products with organically grown fibres are certified to international standards such as the Global Organic Textile Standard (GOTS) or the Organic Content Standard (OCS).

SUSTAINABLE REGENERATED FIBRES / TENCEL™ LYOCELL AND LENZING™ ECOVERO™

Marc O'Polo Home works with regenerated fibres such as TENCEL™ Lyocell, a cellulose fibre from sustainably managed forests. Strict environmental requirements apply. We pay particular attention to how the wood is sourced: only from certified and controlled sources. In this way we contribute to sustainable forestry and help protect important ecosystems and the biodiversity of our planet.

RECYCLED MATERIALS

Fibres from recycled materials save natural resources. Marc O'Polo Home uses recycled cotton fibres, recycled wool and cashmere (primarily from pre-consumer material) and recycled polyester fibres, which mainly come from reused PET bottles. Many of our products with recycled materials are certified to the Recycled Claim Standard (GRS).

CERTIFICATES

When sourcing our materials, we increasingly choose widely recognised standards for organic and recycled fibres, and for standards that also take land use into account. For most standards (such as GOTS, OCS, GRS and others), independent parties verify the entire textile chain to confirm that the materials are genuinely present in the product. To guarantee this transparency throughout the supply chain, we are continually expanding the certification of our products. A logo on the label shows whether a Marc O'Polo Home product is certified to a particular standard. And this applies to more and more of our products and materials.

GLOBAL ORGANIC TEXTILE STANDARD (GOTS)

Products carrying the Global Organic Textile Standard (GOTS) must consist largely of organic natural fibres. In addition, GOTS sets strict requirements for the ingredients and production processes used, as well as for social and ecological criteria throughout the entire processing chain.

GOTS ORGANIC: at least 95% organic natural fibres

GOTS MADE WITH ORGANIC: 70 to 94% organic natural fibres

ORGANIC CONTENT STANDARD (OCS)

The Organic Content Standard (OCS) applies to products with 5 to 100% organic material.

OCS 100: at least 95% organic natural fibres*

OCS BLENDED: 5 to 95% organic natural fibres*

GLOBAL RECYCLED STANDARD (GRS)

The Global Recycled Standard (GRS) is a voluntary product standard that tracks and verifies the share of recycled materials in a final product. This standard applies to the entire supply chain and sets requirements for traceability, environmental and social aspects, chemical ingredients and labelling.

EFFORTLESS PERFECTION

The Marc O’Polo Home autumn/winter 2026 collection is all about modern cosiness and effortless comfort. High-quality natural materials, soft textures and timeless designs create moments of pure relaxation. Conscious, sustainable and honest.
The colour palette remains natural and clear: soft neutral tones such as oatmeal, dark sand and taupe, with deep accents in pine green and burgundy. Cool blue tones and soft rose nuances provide fresh contrasts. The result? A balanced atmosphere with urban calm and Scandinavian warmth. For a home that feels wonderfully serene and simply just right.

AILO OAKWOOD

100% organic cotton flannel, GOTS-certified

Checks in a tweed look and classic brown, with a fresh twist. A hint of dove blue and oatmeal lend the design modern lightness. Fine lines within the squares create the typical tartan effect and give the pattern structure. Made from GOTS-certified organic cotton flannel, the dense fabric feels pleasantly warm and soft. A duvet cover set that ensures optimum sleeping comfort and gives the bedroom an elegant look.

SENJA ANTHRACITE

100% washed organic cotton, GOTS-certified

A familiar design, a new colour. The classic duvet cover set in pure organic cotton, in premium renforcé quality, is now also available in subtle anthracite. Velvety soft, moisture-regulating and temperature-regulating, with the retro-inspired herringbone pattern, it gives any bedroom that little bit extra.

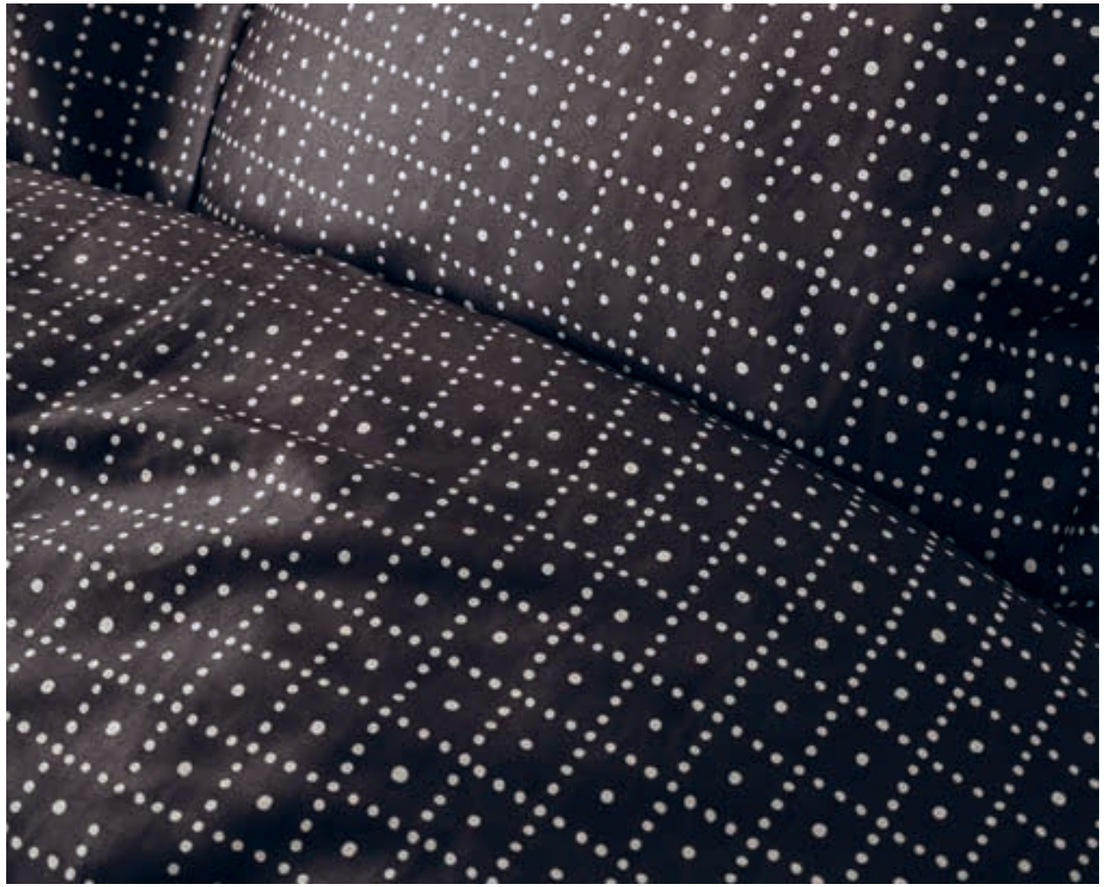
AREN OATMEAL

100% organic cotton satin, GOTS-certified

Crisp horizontal stripes, complemented by small geometric block details. A playful variation on the classic stripe pattern. Soft oatmeal adds to the understated black and white and gives the design a natural feel. Made from GOTS-certified organic cotton satin, this duvet cover set feels wonderfully soft, with a fine sheen and a silky warm finish. The skin-friendly fabric perfectly combines comfort with an elegant and playful appearance.

SUNI ANTHRACITE

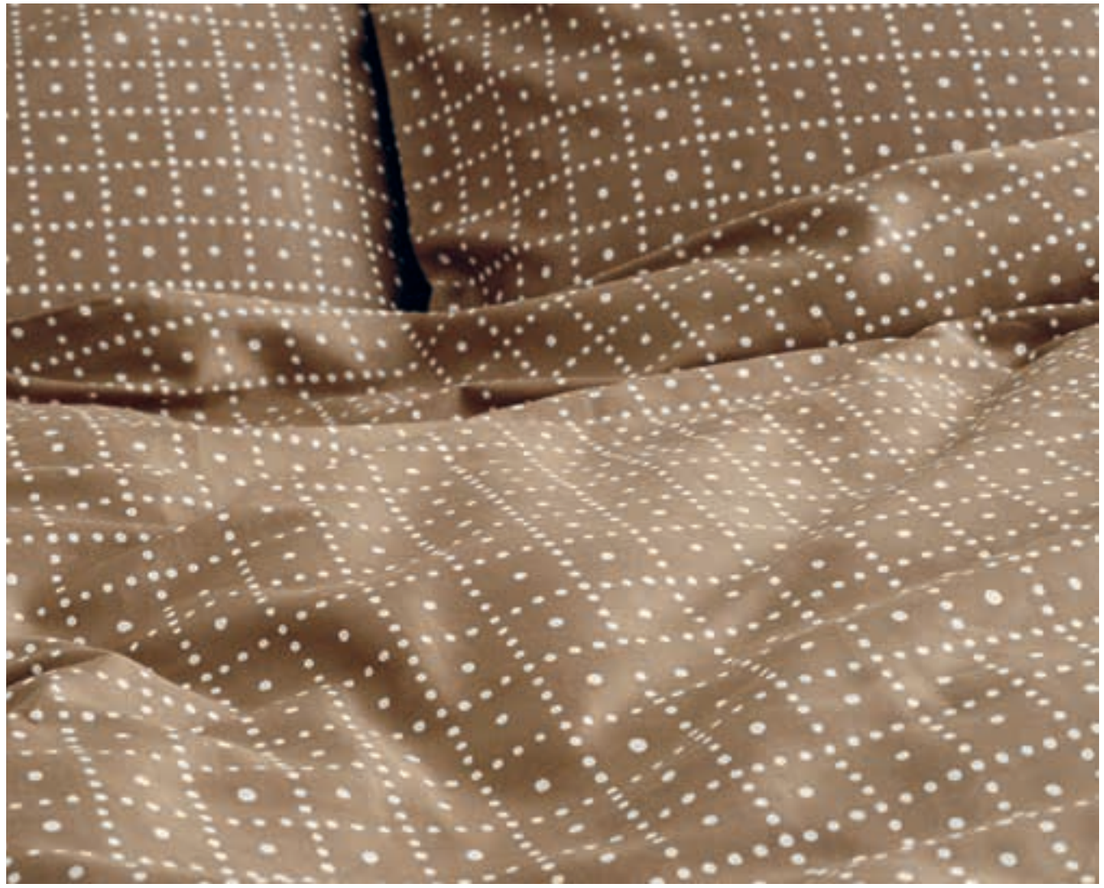
100% organic cotton satin, GOTS-certified



A hand-drawn dot pattern in a subtle grid gives this duvet cover set a refined check effect. The minimalist colour palette in anthracite and oatmeal further reinforces the graphic style of the design. Made from high-quality, GOTS-certified organic cotton satin. A timelessly elegant look for modern bedrooms.

SUNI OAKWOOD

100% organic cotton satin, GOTS-certified



This modern duvet cover set in high-quality, GOTS-certified organic cotton satin surprises with a refined, playful check effect. The hand-drawn dot pattern forms a subtle grid with a graphic appearance, underlined by the minimalist colour palette in oakwood and white. A timelessly elegant design for modern bedrooms, with a nonchalant twist.

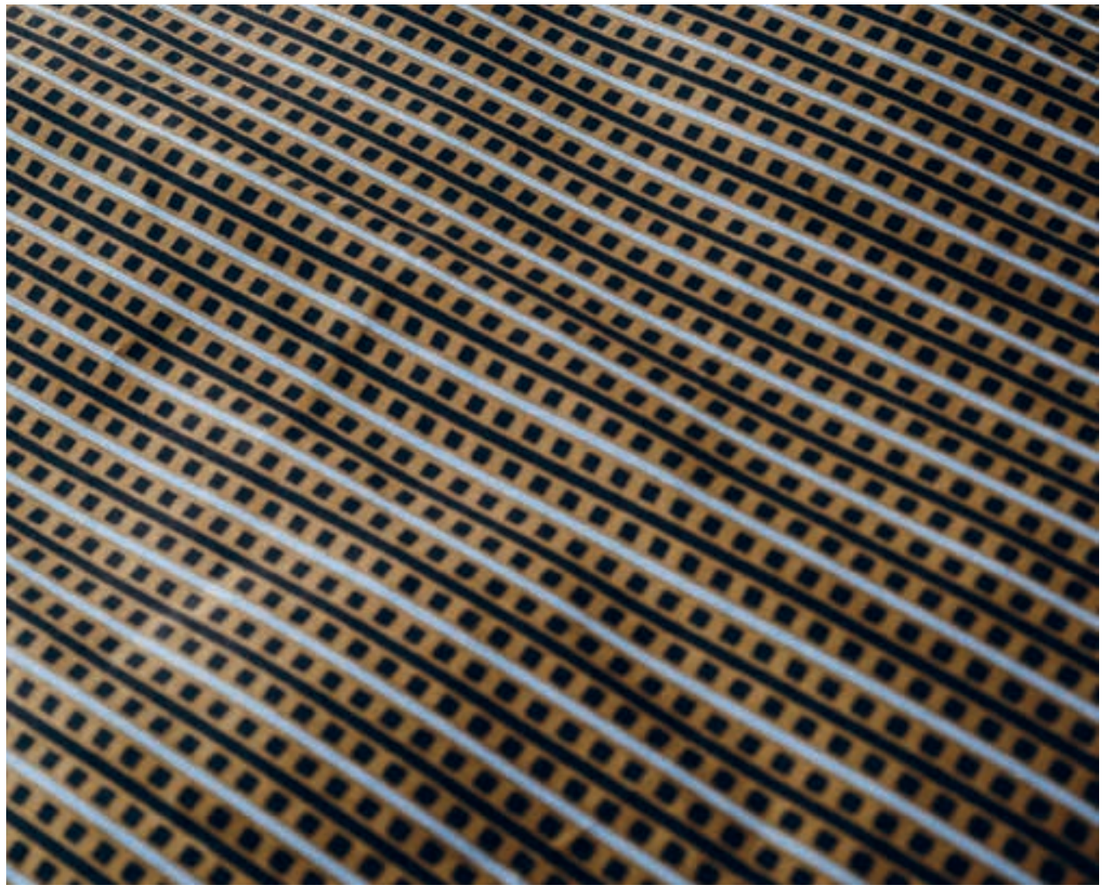
RAGNAR OAKWOOD

100% organic cotton flannel, GOTS-certified

A classic, large-scale check pattern in a timeless look meets earthy, warm colours. Subtle accent stripes in white and light blue give the duvet cover set a fresh and modern touch. The dense fabric of GOTS-certified organic cotton flannel is lightly brushed and feels warm and velvety soft against the skin. The perfect combination of comfort and understated elegance. Breathable and temperature-regulating for a relaxed night's sleep.

AREN WALNUT

100% organic cotton satin, GOTS-certified



Warm walnut brown as the base colour, broken up by a classic stripe pattern in black and sky blue. That little bit extra: the small geometric block details woven between the horizontal lines. Made from GOTS-certified organic cotton satin, the duvet cover set feels soft, with a fine sheen and a silky warm finish. Extra skin-friendly, and a beautiful combination of elegance and optimum comfort.

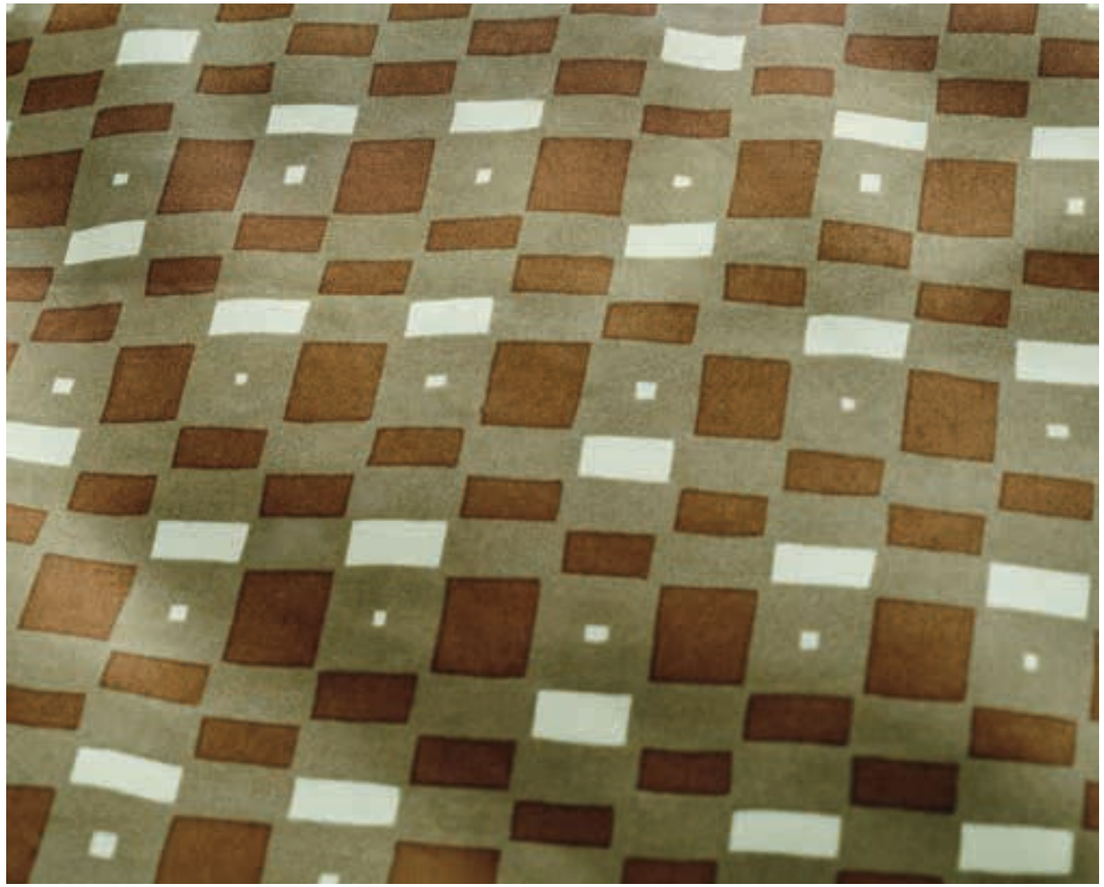
NORE OAKWOOD

50% TENCEL™ Lyocell, 50% organic cotton (OCS-certified)

The calm yet striking stripe design plays with natural brown and beige tones, broken up by fine lines in fresh blue. The velvety soft finish of the duvet cover set is created by lightly brushing the weave: the surface fibres stand up to create a soft structure. Organic cotton feels pleasant against the skin, while TENCEL™ Lyocell enhances moisture regulation and temperature control. For wonderful nights, all year round.

LIDA SMOOTH SAGE

100% organic cotton satin, GOTS-certified



The hand-drawn pattern on this duvet cover set plays with squares and rectangles that appear to dance across the grid. Irregular shapes in sage, walnut brown and pistachio green create an organic vibrancy while remaining understated in colour. The natural material is GOTS-certified organic cotton satin, with a breathable texture, a matte appearance and skin-friendly comfort.

AILO FERN GREEN

100% organic cotton flannel, GOTS-certified

Checks in a tweed motif run across the entire design of this velvety soft duvet cover set, made from GOTS-certified organic cotton. Fine lines within the squares create a classic tartan effect and give the design visual depth. Natural tones in various shades of green, oatmeal and black radiate a pleasant calm. The soft flannel fabric feels warm against the skin and combines modern comfort with an authentic look.

RAGNAR SMOOTH SAGE

100% organic cotton flannel, GOTS-certified

A classic reimagined. In this warm duvet cover set, the timeless, large-scale check pattern meets fresh shades of green, combined with light oatmeal and natural walnut brown. The breathable and temperature-regulating material is made from GOTS-certified organic cotton flannel and is lightly brushed for a velvety soft finish. Maximum comfort and understated elegance for a restful night's sleep.

NORE MIRAGE BLUE

50% TENCEL™ Lyocell, 50% organic cotton (OCS-certified)

Striking stripes in burgundy and blue tones give this duvet cover set a subtle layered look. The material stands out for its velvety soft finish, created by lightly brushing the weave. Organic cotton feels natural and pleasant against the skin, while TENCEL™ Lyocell ensures improved moisture regulation and temperature control. Luxurious and exceptionally robust.

LIDA MIRAGE BLUE

100% organic cotton satin, GOTS-certified

Hand-drawn squares and rectangles are playfully arranged in a grid on this duvet cover set. The irregular shapes in mirage blue, dark burgundy and oatmeal feel vibrant yet restrained, giving the design an organic touch. The GOTS-certified organic cotton satin reinforces this with a breathable texture, a matte appearance and skin-friendly comfort. Easy-care, charming and natural.

JORN MIRAGE BLUE

100% organic cotton satin, GOTS-certified

Wonderfully soft, made from high-quality, GOTS-certified organic cotton satin. This modern duvet cover set cools in summer, warms in winter and is always moisture-regulating. The model stands out for its fine, printed stripes that form a subtle colour gradient from blue to burgundy on the front, while the reverse stays subtly plain. For lightness in the home and on the skin.

TIMELESS BEDDING

Classic patterns. Calming colours. A timeless look. High-quality materials, combined with striking, refined details.

SENJA

100% washed organic cotton, GOTS-certified

Velvety soft, moisture-regulating and temperature-regulating, with the retro-inspired herringbone pattern, this duvet cover set gives any bedroom that little bit extra.

ERLA

100% organic cotton percale, GOTS-certified

Refined two-tone look with a front and reverse in different shades, lending the design a subtle, modern elegance. The GOTS-certified organic cotton percale feels cool and breathable, with a matte appearance and skin-friendly comfort. The enzyme-washed fabric feels extra soft and pleasant, is easy-care and durable, and has a natural charm.

Grey mist

Moss green

Earth taupe

OLIN

100% yarn-dyed organic cotton, GOTS-certified

Classic stripes define the design and set fresh, harmonious accents. The fine pattern evokes a vintage maritime style with timeless elegance. The GOTS-certified organic cotton feels cool and breathable, with a matte appearance and skin-friendly comfort. The fabric is easy-care and stands out for its natural, linen-like look.

Calm blue

Calm sage

Oatmeal

SUVIE

100% organic cotton percale, GOTS-certified

Fine lines define the design and give it a nonchalant, modern look. The GOTS-certified organic cotton percale feels smooth and breathable against the skin. The crisp structure and subtle sheen create a timeless, understated elegance.

Calm blue

Oatmeal

Grey mist

Anthracite

Deep pea

THORE

100% organic cotton muslin, GOTS-certified

Plain and with a cool touch, the soft tone forms a neutral base for a stylish and modern interior with a timeless feel. The GOTS-certified organic cotton muslin stands out for its airy layers, soft volume and flowing texture. The lightly crinkled structure creates a nonchalant lightness, and the material is breathable and pleasant against the skin.

Grey mist

Dark sand

TOVE

100% washed organic cotton percale, 300 TC, GOTS-certified

Scandinavian simplicity. Made from washed, GOTS-certified cotton percale. Clear and regular. The Tove design stands out for its breathable fabric with a thread count of 300, combining softness, durability and timeless luxury. Premium quality with a maritime look and matte appearance.

White

Powder blue

Aquamarine

VALKA

100% linen

This minimalist duvet cover set in pure linen stands out for its clear, timeless appearance and brings calm and a natural atmosphere to the bedroom. It gives the room an elegant, understated touch and forms the ideal neutral base for a stylish, modern interior. Double-stitched edges add fine accents, while the natural linen structure ensures a light, airy texture and high comfort.

CLASSIC FINE STRIPE

100% organic cotton in linen look (GOTS-certified)

A timeless kimono with a summery appearance. With fine, classic stripes that tie in beautifully with the bedding collection. Featuring two front pockets and a belt for added comfort. The natural linen look combines breathable properties with the softness of organic cotton. Yarn-dyed, with a subtle matte appearance.

Kimono S-XXL € 59,95

BATHROOM ACCESSORIES

Made from durable stoneware and crafted by hand, this collection brings together natural shapes and clean lines. From soft and organic to bold and modern: each piece is unique and together they form a timeless whole.

THE WAVE SERIES

Stoneware with soft-touch coating

Soap holder ø 11×2 cm	€ 27,95	Soap dispenser ø 7,5×13,8 cm	€ 44,95
Toothbrush holder ø 8×10,6 cm	€ 27,95	Tray 25×10,5×2,1 cm	€ 44,95
Small storage jar ø 8×10,6 cm	€ 39,95	Large storage jar ø 12×18 cm	€ 44,95

The Wave Series is designed for those who appreciate natural beauty in both form and texture. The products are made from durable stoneware through a special hand-crafted process, making each piece unique in shape. The series consists of six products carefully matched to one another. The design language is soft and inviting, with gentle curves and elegant waves, celebrated in a soft colour palette and classic anthracite.
